EDUCATION

Year	Degree/Exam	Institute	Marks/ CGPA
2020 - 2024	B.Tech CST With Specialization in ML & AI	Graphic Era (Deemed to be University)	8.96/10
2020	12 th , C.B.S.E	Doon Public School, Haldwani	75.4 %
2018	10 th , C.B.S.E	Doon Public School, Haldwani	81 %

TECHNICAL SKILLS

- **Languages:** C++, Java, Python, HTML, CSS, Javascript, SQL
- **Database :** MySQL, MongoDB
- **Tools and Frameworks:** Node.js, React.js, Next.js, AWS, Git, GitHub
- **Skills:** Data Structures, Algorithms, Problem Solving, Cyber security

PROJECTS

- **Chatbot Using Deep Learning** (Oct'22)
 - Developed a **Chatbot using python** to provide you with a seamless and engaging conversation experience.
 - This ChatBot is trained using **PyTorch**, a powerful deep learning framework, to understand and respond to user input in a human-like manner.
 - It's your personalized companion for instant and intelligent interactions.
 - Link: **Chatbot**
- **Prism Connect** (Jun'23)
 - The **Prism Connect** is a cutting-edge mobile application that re-imagines the way we connect and collaborate in a virtual world.
 - This project harnesses the power of **React Native** to deliver a seamless and intuitive video conferencing experience reminiscent of the popular Zoom platform.
 - Experience crystal-clear video calls, and a host of collaboration tools, all in the palm of your hand.
 - Link: **Prism Connect**
- **Travel Diary** (Jan'23)
 - The **Travel Blog Project**, built using ReactJS and NodeJS, is a dynamic and engaging platform that takes you on a digital journey to explore the world's wonders.
 - This project seamlessly combines the power of **Front-end ReactJS** with the versatility of **Back-end NodeJS** and **Database MongoDB** to create an immersive travel experience.
 - Create personal travel **Profiles** to document your own journeys, keep track of visited destinations, and share your travel bucket list.
 - Link: **Travel Diary**
- **Prompton** (Aug'23)
 - **Prompton** is a cutting-edge application built on top of **Next.js**, leveraging the power of server-side rendering (SSR) and **React.js**.
 - It can basically provide user the ability to create, update, delete short prompts for future use which are mainly asked to ChatGPT.
 - Create **Profiles** to manage and organize your shared prompts, as well as discover prompts shared by others in the community.
 - Link: **Prompton**

SCHOLASTIC & CO-SCHOLASTIC ACHIEVEMENTS

- Microsoft **Azure AI Fundamentals**
- Introduction to **Artificial Intelligence (AI)** - IBM
- Practical **Machine Learning**
- Google **Cybersecurity**
- Participation In **Sparkathon**

FIELDS OF INTEREST

- Software Development, Web Development, Machine Learning, Cloud Computing
